

Adria Yacht Center - Target Sailing Regatta (31.10.2014 - 01.11.2014)

What is Target sailing?

A Target Regatta is designed for safe competitive sailing and is intended for rookies (*non professional sailors*) to improve their sailing and navigation skills. You will be racing against the clock, so teamwork is important. Unlike other regattas the risk of collision with other boats on the start line or at the marker has been removed, because each boat will make its own time slot and sail to the crews ability.

All crews will receive a certificate of merit based on the final score, style of sailing and the spirit of the regatta.

Webeye will judge the regatta and the sailing times adjusted manually and the results given to each crew at the end of each day.

How it works

Before each race the skipper and crews will be informed at the briefing about the course and given the coordinates (Navigation Waypoints) that must be hit during the race. All boats must start the course before 10.00h and finish before 18.00h.

Targets

Each Target offers a -30 minute bonus if crossed within 50 meters of the center or -15 minute bonus if crossed 100 meters of the center or -5 minutes if crossed within 200 meters of the center.

At the end of each stage the time will be calculated and any bonus times scored deducted. This will be the crew's score.

During your time with AYC our skippers will answer any questions you might have, so you can relax and enjoy the warm, friendly Croatian hospitality and the beautiful Adriatic coast and its many islands and take part in some fun and game with the other crews.

NOTE: Targets may have an entry or exit gate. The judge's decision is final and are based on the Webeye satellite data. The organizers take no responsibility for damages to boats, property or personal injury. The weather conditions may affect the course on the day.

We are looking forward to welcome you on our regatta!
